

EMPOWERING DAIRY SUPPLY CHAINS TO FEED A GROWING WORLD

DAIRY IS A STAPLE AROUND THE WORLD, BUT GETTING IT FROM FARM TO TABLE IS COMPLEX.

At Dairy.com, we're empowering supply chains to feed a growing world more efficiently and effectively through industry-leading technology and expertise.

With our dairy advisory capabilities and comprehensive suite of supply chain, transportation, risk management, and commodity trading solutions, we're helping the entire industry protect profitability and deliver quality products every step of the way.

EVERY YEAR, NEARLY **100 BILLION POUNDS** OF MILK FLOWS THROUGH OUR SOLUTIONS.

Questions? Contact Us.
Connections@Dairy.com

Each one of our solutions offers an unparalleled breadth and depth of capabilities developed using over 20 years of experience in the dairy industry. We understand the challenges you face, whether you're dealing with raw milk, dairy products, or dairy as an ingredient in other foods.

Our solutions also facilitate collaboration, especially when deploying multiple solutions. That allows everyone involved to build stronger relationships and make well-informed decisions while speeding activity and reducing workloads – including producers, cooperatives, transportation managers, plant executives and drivers.

MILK PRODUCTION

PRODUCER PORTAL

Allow producers to view pay statements and milk test results in one centralized dashboard

PRODUCER PAYROLL

Enable efficient and accurate management of payments to producers and haulers

MY DAIRY DASHBOARD

Visualize and analyze your dairy's key performance metrics
